PHILIP MORRIS U. S. A.

INTER-OFFICE CORRESPONDENCE

RICHMOND, VIRGINIA

To: Dr. R. B. Seligman Date: June 17, 1977

From: W. F. Kuhn

Subject: Pilot Plant Exemption Under the Virginia Toxic Substances Information Act

Attached is a letter from Bill Rosbe who attended the Virginia State Board of Health meeting on June 16, 1977, in the State Capitol Building, at which time he presented our statement in regard to the re-wording of the statute which deals with Pilot Plant exemptions.

Only two members of the Virginia Board of Health were at this meeting although several interested parties were in attendance to either present statements or to make the Board of Health aware that they intended to present written statements at some later date.

Mr. Rosbe said that the meeting was short and that representatives for the Board of Health seemed to be receptive to our proposed changes in the statute. Mr. Rosbe in paragraph three states a very interesting observation that he gathered in a personal discussion with Dr. Jack Hilken of the Board of Health. If the Board of Health is now considering complete exemptions of paper and tobacco producing industries within the Commonwealth, then Philip Morris may be exempt from all the reporting requirements under this law.
